Special Notice to Business Men. As an advertising paper, the Democrat is universally regarded as the established medium of Nothing railing at squatter sovereignty, just ask business communication between the buyer and him what he is afraid of. Territorial legislatures seller; its largely increasing circulation, both at have acted without restraint upon all subjects of home and abroad, offers a favorable opportunity domestic policy, and no objections have been for a judicious dissemination of mercantile inteltigence. But suppose the South should all go for Fillmore, and elect him; what would the South make | Hon. W. C. Goodloe, Hon. Green Adams, James by such an act of folly? It is admitted by the organ that the Fillmore men North are all ready to concentrate on Fremont. They are all sectional men, and if they can't get their personal preference for President, they will go for the Northern Bianton Duncan, G. W. Williams, and Wil ence for President, they will go for the Northern revolutionary party. And this is too true. They are now engaged in concert with the Abolitionists in electing State officers, Congressmen, and members of State legislatures, of the Abolition stripe. If they succeed in their purposes, and elect Fillmore, and get the Congress they are aiming for, where will the South be?

These two parties in the free States, the Fillmore and the Frement men, made the present Congress; and they are now engaged in electing, if they can, a body of the same sort of politicians. A beautiful prospect the South would have before her! We have now a President and Senate opposed to revolutionary schemes, but they can't pass an appropriation bill. How should we stand with a Senate similar to the House, if Fillmore were President?

Grant that Fillmore would be a conservative charged with usurpation, dangerous powers and assumptions. In consequence of these attacks upman if elected, what would he do with a party in Congress, all Black Republicans from the North, elected, too, by the vote of the same men that election of six Circuit Judges by our oppo-elected him? The case is just the reverse with nents, and the extinguishment of the great light Buchanan. His party have their own candidates for State offices, for Congress, and State legislatures; and if Buchanan is elected, he will have a leaders, and were overcome by the opponents of the came political principles he has, the American party. Had the party throughout the State made nominations it would have moved and condemn all the pestilentisms of the day.

Let the South take her choice between the two improper course pursued towards us, the committee continued to uphold their action, and to exhort our friends to duty. With this view they issued another circular in June, calling upon the party with the full state of the case staring her in the face. Indeed, the South has decided to take Bachanan, and nothing will alter the decision; to open the canvass and go to work. This was reand all national men in the free States have come all took the stump, and the party was saved from an entire defeat. We have now six out of thi

A MERRY MESTING .- The fragments

We have before us the first number of a weekly ournal, published at Covington, Ky., by Messra. Oliver Lucas and F. L. McChesney, young gentlenen formerly engaged in our office. The paper is devoted to the cause of the Dem

ranks that we hear of all over Indiana and Illicracy, and in the hands of these young gentlemen, will be an efficient help in the Tenth Congressional District. The paper is published on clear, new type, and presents a fine appearance. God speed our young friends in the good cause. It is seldom we meet with so remarkable

to enter before the books are closed. The negro-wershippers are still paying devotion to the Fre-mont donkey, and say if there is no salvation in an incident as the following, which occurred at a mass meeting of the Democracy at Easton, Pennlaam's ass. VALUABLE FARM IN MISSOURI .- We direct the attention of our readers to the advertisement of Mr. Octave Abat, offering a very large and fertile farm for sale in Missouri. The premises are improved in admirable style, and to a gentleman of mount it presents a most desirable home. There are many Kentuckians looking to the rich fertile lands of Missouri, and to the attention of such we especially direct the advertisement of Mr. Abat.

The New York Times states that although efforts are made to conceal the facts, it is unquesable that yellow fever has found a lodgment on Long Island, and that at least fifty persons have died of it in New Utrecht and vicinity alone Many inhabitants have fled panic stricken, and where are not well persons enough left to take care of the sick. The mayor of Brooklyn has for some days kept an extra police to prevent intercourse with the infected district. Several cases have occurred in Brooklyn. At the quarantine hospital the number of cases is much diminished.

The speaking last evening at the Club was of the highest order. The address of Dr. Brockinridge, we believe, was the first he has made on political subjects. It was both logical and eloquent. He was followed by Mr. Miles, of Mississippi. He is one of the thousands of Old-Line Whigs who have decided for Buchanan and Breckinridge, and he is able to give his reasons for it. both in matter and style, worthy of the cause. High words ensued, and the parties were prevented from a collision by the interference of persons present, although we understand that Badget struck Mr. Jones. At length Luget broke by the persons allaying the difficulty, and rashed at Jones, who, we learn, shot at him-Badget shooting in return at Jones, and following him up as he retreated. BK198—Daring the past week several buyers from the country have been in the city, and huniness will continue to improve from this out. The season promises to be an unusually good one, and buyers may calculate on finding goods lower this fall than they have buyer them for years. Some few articles are certainly higher than in the spring, but the majority are lower, quitine is lower than it has been for a long time, being fully 30 per cent. below the price hast fall. Rhubarb is receding to its old price, and ipsecat is much below former quotations. Owing to the low stage of water it is impossible to get turpentine into market, and the stock being very small the price has advanced. Our merchants are getting in heavy stocks from the East, and receptantions are being made for larger sales.

Yes yes feathers are commiss in, the supply b ing entirely from wagons. It would be well for holders in the country to push them forward, as they are commanding a higher price than the demand East will long justify under feathers at 50c. with sales of 4,500 bs.

EGG Prices have again improved, with a good demand on licht receipts. Dealers pay 10c from wagons. FRUITS—The sales of forcing fruits are very bimited, consequent upon a light denand and stock. NAUTION. THE GREAT CELEB-CAUTION. THE GREAT CELEBacquired in Philadelphia and throughout the United
States, and the great demand that I have for the article,
have prompted some unprincipled persons to get up a
narticle in the same name, and in every outward appearance perfectly similar. The label is a perfect fac simile
of my own. The subscriber would be above noticing
such baseness, but is obliged to do so to put his customers upon their guard, as the whole style of the article
is well calculated to deceive. Be careful to look that
the name of Jules Hanch be on the label.

of that popular preparation, known as Jules Hauel's
Ram Lustrale Restorative.
No one will use any other after once using this delightful article. It is pronounced to be a prodicy in chemlary. It cleans the hair, renders it beautifully bright,
smooth, and glossy, and restores the hair where it has
fallen off from disease, and in these desirable effects it
has never failed to give satisfaction. For sale wholesale and retail by

THE UNDERSIGNED ARE PREpared to sell the right of "Garrott's Patent 0il Bocket, with Axle Cleaner" for the State of Kentucky, or any part of the State, on terms too that will almost insure a fortune. This contrivance is inserted in the hub of a wheel, enabling a person to clean and oil the axle thoroughly, and in an incredibly short space of time, and oithout removing the toked. With it, an axle cannet become darty, and in time, oil or labor, more than twice the cost of the Socket will be saved every year. It is adapted to every kind of wheel in use, besides being simple, effective, lasting, and chap. We challenge any one to find any individual who has used the Socket that is dissuitisfied.

In Alabama rights for counties are going off fast, at price ranging from \$75 to \$300 each. In proper hands, the right for Kentucky would pay, through judiclous agencies, from \$15000 to \$25,000 per annum.
